## SESTANTE UP

### LA QUALITÀ MERCANTINI MERCANTINI QUALITY

#### SISTEMA DI CONFORMITÀ SYSTEM OF CONFORMITY

---

Mercantini produce in maniera responsabile ed ecosostenibile, fornendo prodotti di qualità che non hanno rilascio di formaldeide e sostanze nocive. È titolare di certificazione UNI EN 717-1:2004 (COSMOB) nel pieno rispetto di tutti i parametri di sicurezza.

Mercantini manufactures in a responsible and environmentally friendly way, by providing quality products that do not release formaldehyde and harmful substances. It holds certification UNI EN 717-1:2004 (COSMOB) in full compliance with all safety parameters.

#### SCORREVOLI SLIDING PARTS

---

I profili per scorrevoli Mercantini su cieli e fondi vengono montati, in sicurezza, senza viti a vista; le meccaniche "ricercate" consentono uno scorrimento leggero, silenzioso e affidabile. Le ante sono inoltre provviste di un sistema ammortizzato che, in fase di chiusura, ne rallenta e blocca la corsa.

The profiles of Mercantini's sliding elements, on tops and bottoms are safely assembled, with no visible screws; the refined mechanical devices allow a light, quiet and reliable sliding. The doors are also provided with a shock absorber system which, in the closing stage, slows down and stops its movement.

#### CERNIERE HINGES

---

Resistenti, tecnologiche, indistruttibili. Le cerniere utilizzate da Mercantini sono in acciaio e testate per 200.000 aperture.

Resistant, technological, indestructible. The hinges used by Mercantini are made of steel and tested to 200,000 openings.

#### PANNELLI IN TAMBURATO HOLLOW-BOARD PANELS

---

Sono più leggeri, ma hanno maggiore robustezza. I pannelli in tamburato assicurano la migliore qualità, la massima stabilità nel tempo, senza rischio di deformazioni.

They are lighter but stronger. The hollow-board panels ensure the best quality, highest stability over time, without risk of deformations.
